Grab a little R&R: Set up a daybed on your porch or patio.

photograph GORDON BEALL

A handsome twin bed serves as an easy daybed. Feather such a nest with a row of throw pillows and bolster pillows at the headboard and footboard. Depending on the design of your bed frame, you may need to detach and trim the headboard so it's the same height as the footboard. This will lend the daybed a pleasingly symmetrical look. One more great idea to grab from this porch: fence pickets painted to resemble a flag.
