A SPACE FOR TRANQUILITY

words XENIA FONG photo MEKENZIE LOLI

THE IDEAL BEDROOM IS A SPACE FOR TRANQUILITY and relaxation, and that's exactly what Beth Keim presented with her renovated master bedroom. Switching out warm tones of red and gold and focusing instead on cool neutral tones, clean lines, and lots of white, Beth brings together elegance and beach vibes for a relaxed, yet sophisticated ambiance. A wall-to-wall graphic patterned Stark carpet adds texture and visual interest, as well as helps break up all the white. Dark custom wood beams by Jacob Wolfe are made of old barnwood and give the room that beachy feel. Vanguard furniture, a locally cus-

tom-made bed frame, and Mr. Brown bedside lamps tie the room together with similar color palettes and styles.

The Jacob Wolfe doors leading to the master bathroom are the real focal point of the room. The Great Gatsby-esque gray doors are carved with geometric details, and filled with gold leaf for that extra pop. The gold door knobs are repurposed curtain tie backs that help accentuate the gold leaf even more and make the doors the star piece that Beth believes every room needs.
